

TT100-8812-NG Ultrasonic Thickness Gauge

Measuring Range (Metric / Imperial)	1.2-225 mm / 0.05-9 Inch.
Measured Materials	Any hard materials including steel, cast iron, red copper, brass, zinc, polyethylene, PVC, and other materials
Sound Speed	500-9000 mt/sec.
Accuracy / Resolution	+/- (0.5% n + 0.1) - Calibration block included Resolution 0.1 mm
Large Capacity Battery	4x1.5 V AAA - Low battery indicator
Small Size & Light Weight	120x62x30 mm; Weight 164 g without battery
Low Limit Steel Pipe	15 x 2.0 mm
Output	RS232 interface
Display	4 Digits LCD
Configuration / Set-up	By Friendly Push Button Key Pad
